PROFESSIONAL EXPERIENCE

Agile Leader / Senior .NET Developer

December 2009 – April 2015

ToolBox Solutions Inc. – Brampton, ON

- Directed software development for large Canadian and U.S. companies using Scrum in an Agile environment
- Coached and trained new team members on Scrum practices and principles
- Eliminated impediments for the software development team to remain focused on sprint tasks
- Presided over daily scrum, sprint planning and review, high level estimate meeting, and sprint retrospective
- Analyzed client business requirements and adapted into technical user stories
- Collaborated with Development Team, Scrum Masters, Product Owners, and business stakeholders
- Developed and delivered training to end users of the final software product
- Maintained Scrum artifacts including sprint backlog and burn down
- Designed and developed reporting-based solutions for Category Management in all 3 development tiers
 - Front-end: ASP.Net, CSS, Javascript, JQuery
 - Middle-tier: C#, Entity Framework, WCF
 - Database: Microsoft SQL Server objects, T-SQL

Lead Architect / Owner

October 2005 – December 2009

Pleasant Valley Software Ltd. – Ingersoll, ON

- Established project scope and system architecture for clients such as General Motors (U.S.), RBC, Brookfield
- Enabled clients' productivity by recognizing and implementing business needs into their software
- Operated day-to-day business, staffing, accounting, marketing, and public relations

Team Lead / Senior Developer

March 2002 – October 2005

Retail Communications Group Inc. – Etobicoke, ON

- Led client discussions to analyze new development or feature enhancements to existing applications
- Managed project timelines, staffing requirements and team assignments
- Introduced .Net technology to team during its beta release
